## Profile

Detail-oriented and passionate Full Stack Developer, currently pursuing a Bachelor's degree at Addis Ababa University. Proficient in front-end and back-end technologies including HTML, CSS, JavaScript, React, and Node.js. Adept at collaborating on team projects and independently developing innovative web applications. Committed to continuous learning and leveraging technical skills to build scalable, user-friendly solutions.

## Educational Background

### BSC in Software Engineering

Addis Ababa University | [AAiT](#)

Feb2023 - Jun2027

CGPA - 3.55/4.0

- Full-stack web Development
- Database Management Systems
- Software Development Life Cycle
- Object Oriented Programming
- Data Structures and Algorithms

### Front-end development

[Shecodes](#) | [Certificate](#)

Aug2024 - Nov2024

### programming fundamentals

[Udacity](#) | [Certificate](#)

Jul2024 - Sep2024

## Projects

### Forum Project

- Designed and developed a community forum platform where users can post queries and replies using Express.js for the server-side handling.
- Enhanced user engagement through features such as upvotes and comment threads, utilizing CSS for clean and responsive design.

## Tech Stack

- **Web Development:** HTML, CSS, JavaScript, React
- **Back-End Technologies:** Node.js, Express.js
- **Database Management:** MySQL
- **Version Control:** Git, GitHub
- **Soft Skills:** Problem-solving, Team Collaboration, Effective Communication

## Certification

- Programing Fundamentals – Udacity
- Front-End Development – SheCodes

## Extra-curricular activities

- Millennium Fellow class of 2024

## **Amazon Clone**

- Created a robust e-commerce application mimicking Amazon's functionalities, utilizing a combination of React, Node.js, and MySQL.
- Focused on building a user-friendly shopping experience, including product listings, cart management, and secure user authentication.

## **Netflix Clone**

- Developed a fully functional clone of the Netflix streaming service using React for the front end and Node.js for the back end.
